

ENVIRONMENTAL POLICY

MG ALBA's core remit is to bring high quality Gaelic programmes to audiences in Scotland.

Whilst allowing the organisation to deliver its services in an efficient and commercially aware manner, MG ALBA recognises its responsibility for the environment and will ensure compliance with all relevant current and future legislation as well as endeavouring to be compliant with all appropriate codes of practice.

We are committed to minimising the environmental impact of our operations and will work in partnership with stakeholders and tenants in fulfilling this commitment. In particular, we will achieve this through our commitment to:

- Reducing Energy consumption and increasing the efficiency with which we use Energy.
- Maximising the efficiency with which we use material and other resources.
- Actively reducing waste through responsible disposal, reuse and recycling of materials.
- Improving the environmental awareness and skills of our employees.
- Encouraging other contractors and suppliers to adopt our environmental policies.
- Implementing an Environmental Management System with objectives and targets.
- Working closely with environmental advisors to improve our overall environmental credentials.
- At the start of each calendar year set, for the coming 12 months, and review the previous year's performance, for Environmental objectives and targets.

A positive attitude to the Environment is the responsibility of everyone and all management, staff and tenants are expected to contribute to achieving the organisation's overall objective. MG ALBA will provide adequate and appropriate resources to maintain this policy and will ensure it is properly communicated and understood. Contributions and suggestions to policy improvements are being encouraged.

The aim of the organisation is to encourage initiative and adopt best practice in a culture where all involved are aware of their individual responsibilities for the environment and actively engaged and committed to improving standards of environmental management.

The Environmental Policy is the responsibility of the Director of Finance.
